

MOMENTUM DYNAMIC™

MODEL: 90-3505

MAINTAIN YOUR DAILY MOMENTUM

ASI's Momentum stools are ergonomically designed combining comfort, optimal support and freedom of movement to help keep you going all day.

THE BACKREST COMES TO YOU!

The advanced Momentum Dynamic™ stool features a mechanism that makes the backrest move into your lower back when needed.

PERSONALIZED SUPPORT

The Momentum Dynamic™ can be adjusted for each individual user.

After initially adjusting it to your individual body, no further adjustments are necessary.

The seat mechanism will then move with you while performing procedures to optimize support.

ASI's Momentum Dynamic™ Stool Model 90-3505

AVAILABLE OPTIONS

Foot Ring	For operators who need to sit higher
Tall Cylinder	For operators over 6' tall
Custom Colors	To view color options, visit https://vyvafabrics.com/vinyl/valencia/

FEATURES & SPECIFICATIONS

OPTIMAL POSTURE

When seated, the lumbar support automatically comes toward the back, fitting snugly into the hollow contours of the lower back. The natural anatomical S-shape of your spine remains secure, even during passive sitting. The smaller size and shape of the lumbar support provides optimal freedom of movement and activates stretching and stabilization of the entire spine.

FULLY AUTOMATIC

When sitting in an active working position, the seat assumes a positive inclination of 3°. With normal fatigue leaning back may seem more comfortable, but a slumping position increases the risk of disc pressure. The stool automatically compensates for this by tilting the seat 6° back and advancing the lumbar support towards the lower back for optimal correction.

STANDARD FEATURES:

Adjustable backrest for lumbar support. Slip-resistant Valencia® upholstery is coated with a PermaBlock™ protective finish for easy cleaning. Seat height adjustment for maximum operator comfort.
